

# THE Gleichen Call

DEC 5 - 1925

NINETEENTH YEAR, NO. 37

GLEICHEN, ALBERTA, WEDNESDAY, DECEMBER 2, 1925

SUBSCRIPTION \$2.00 A YEAR

## CORRESPONDENCE

(The Call must not be held responsible for the opinions of correspondents.)  
Editor Call:

Dear Sir:—In your last issue the article headed "Board of Trade Secures New Phone Exchange" is misleading, not being a true statement of facts, and would suggest to the casual reader that your local member was asleep and neglecting the interests of our town.

On the evening of the cloudburst on July 6th, I visited our phone office and wrote the minister the next day as follows:

Gleichen, July 7th, 1925  
Hon. V. W. Smith,  
Minister of Railways  
and Telephones,  
Edmonton, Alberta.

Dear Sir:—  
After a heavy rainstorm yesterday I visited our local telephone office and found the operators had been evicted by the flood, the water and mud being about 12 to 16 inches deep in the office. As this is not the first time such has occurred, I would be glad if you will see that these conditions are soon remedied, for I know that you will agree that it is unreasonable that girls should be called upon to continue risking their health and possibly life in our service.

Yours sincerely,  
JOHN C. BUCKLEY

Reply.  
Edmonton, July 9th, 1925  
To John C. Buckley, Esq.,  
Gleichen.

Dear Mr. Buckley:—  
I have yours of the 7th inst. drawing my attention to the condition of the local telephone office, after the cloudburst which occurred on the 6th inst. and wish to thank you for same.

On taking this matter up with the Departmental Officials I find that they have been to Gleichen to deal with the matter.

Gleichen is on our list for a new telephone building, and I hope that we may be able to undertake the work next spring. In the meantime the trouble will be dealt with in a temporary way as best we can.

I agree with you that girls should not be called upon to risk their health working under conditions which undoubtedly may occur at any time so long as our local office remains in the present location.

Yours very truly,  
VERNON W. SMITH,  
Minister.

A little later being in Edmonton I discussed the matter with the minister, with the object of getting up the building before winter, but owing to the fact that no money was provided in the estimates last spring for that purpose, he could not do so, and on my way home I accompanied the architect of the department from the train to inspect the office and consulted re alternative sites.

Now, seeing the Board of Trade's first communication was more than three months later, I am confident your readers will not accuse me of seeking self-advertisement, but will readily understand the need of my troubling you with this explanation.

Yours sincerely,  
JOHN C. BUCKLEY

## SHOULDICE NOTES

The Shouldice Women's Institute gave a whist drive on November 14 at the Lloyd George Hotel which was much enjoyed by the town folks. Miss Hough was winner of the ladies prize and Miss J. Taylor the consolation. Mr. Armstrong received the gentleman's prize and Mr. Dazoe, sr., the consolation. All present expressed themselves as spending a very pleasant evening.

Earl Harp has sent a pen of Barred Plymouth Rock Pullets down to the Lethbridge Experimental Station to compete in the egg laying contest. These pullets are of high egg laying stock, and it is expected that they will make a record any poultry man

## CRAIGANTLER ITEMS OF NEWS

(From our Own Correspondent)  
L. H. Laverdson left last Monday on a trip to his old home in Denmark. Mr. Laverdson has been in this country for quite a number of years and has done well farming. This is his first trip home, and all join in wishing him a good trip and safe return.

Mr. and Mrs. F. Hall were visitors to Calgary on Monday last.

T. Envoldsen is a cracker jack at moving houses. Tom has moved three from Bassano to the Craigantler district lately.

H. B. Grant had to go to Calgary on Monday last. Mrs. Grant is suffering from an attack of "flu". We hope she will soon be all right again.

Mr. and Mrs. J. A. Grant and family were visitors with Mr. and Mrs. George McLean of Carmhill (L.P.R.) headquarters.

"Doc" Watson of Delia was on a business trip through the Craigantler and Standard districts last week.

## WANT MAIN HIGHWAY STRAIGHT EAST THENCE TO GLEICHEN

A deputation, including representatives from the towns and district of Strathmore, Rockyford, Hussar, and Standard left for Edmonton with the object of putting before the government the proposition that the main highway, instead of turning south at Strathmore as at present should run straight east until north of Gleichen, and then turn south.

The deputation's claim is that this would not increase the distance between Calgary and Gleichen, but that it would serve a much more heavily populated territory than at present giving highway facilities to Standard, Hussar, Rockyford, and other points. The present road has the Indian Reserve on one side of it, and does not serve anything like the same number of people.

During the past two months the government has had a crew of engineers surveying the road between Inverlake and Namaka for the new highway that is to be built under the arrangement between the provincial and Dominion governments for a 28 foot wide standard gravelled highway.—Strathmore Standard.

This would certainly be a grand improvement and as well as serving the greater number of people would avoid the sand just south of Strathmore which has always been the most difficult part of the entire road from here to Calgary.

You will have no trouble in seeing what T. H. Beach is going to do if you take a look at Page 5 of this issue.

might be proud of.

Mr. Thompson, of Cluny, is moving his family to Shouldice, and by the time our school house is ready there will be enough pupils to make the work interesting for the teachers.

Mrs. Nicholls won the bronze turkey that was raffled on November 14 by the Shouldice Women's Institute.

Threshing machines are under shelter now and most of the grain has been delivered to the elevators.

Philip Brown Lewis and Miss Ethel Page were married recently and will spend the winter in B. C.

Mr. and Mrs. Geo. Brown and Miss Harp were among the Gleichen visitors this week.

Crum Bros. are moving their pool hall to Queenstown for the winter.

MYSTIC NIGHTS—DEC. 15 and 16

## CONNIE TALMADGE AS MADCAP DANCER

New Comedy, "Her Sister From Paris."

Social Show Wed. Dec. 9th

Constance Talmadge plays her most unique role in "Her Sister From Paris", which First National will present at the Gleichen Community hall. For the first time in her life, she acts the part of her own sister!

The story has to do with the exploits of a young and charming—although too thoroughly domesticated—wife who educates her husband into showing his love for her. To do it, she impersonates her own madcap sister from Paris, who has become a famous dancer.

It was necessary to evolve for Constance a disguise which would so completely transformed her that even her husband wouldn't know her, and at the same time retain enough of her own loveliness so that she looked like herself. Particular care was taken with her gowns, and dressmakers worked for weeks before Constance and Sidney Franklin, her director, were satisfied. In the early part of the story she appears as a meek little person in housewifely garb, and then suddenly changes into a bizarre, audacious young dancer.

In her first character she is unable to tell her husband's love; in her second character she charms him completely that he even elopes with her, thinking she is her own sister. Hans Kraly wrote the original story for Constance, and she is supported by Ronald Colman, George K. Arthur, Gertrude Clair and others.

## THE UNION CHURCH CIRCLE ANNUAL BAZAAR

ATURDAY, DECEMBER 12, 1925

The ladies of the Union Church Circle will hold their annual bazaar in the Dining Room of the Community hall on Saturday afternoon, commencing at 3:30, December 12th. We have a splendid line of fancy work, including pillow cases, vanities and buffet sets, dresser scarfs, lunch cloths, doilies, dolls, towels, and various other things, among which will be found a few articles in the new gesso craft. We also have some house dresses and very pretty aprons, and there will be the usual abundance of home cooking.

A Japanese tea room will be a special feature and an old fashioned "fish pond" is being prepared for the children, in which every catch will be a "good catch".

You will find many appropriate articles for Christmas gifts at this sale.

MYSTIC NIGHTS—DEC. 15 and 16

## IN MEMORIAM

Died at the home of his nephew, E. J. Patterson, near Arrowood, David Kingsborough, on Friday, Nov. 27, 1925.

He was a man of excellent habits, fine moral character and sturdy constitution and he continued to be active in his accustomed pursuits till long past the age at which men ordinarily drop out of the ranks of workers. To this end there is no doubt his sunshiny disposition largely contributed. He was a practical, matter-of-fact man, but had his own peculiar way of extracting pleasure from life, and for many years was a member of the Royal Orange Lodge in which he took a keen interest. Although he never married he took a keen interest in the children of his relatives and in return was greatly beloved by them, making his demise keenly felt, not only by them but by all with whom he came in contact.

The deceased lived to the ripe old age of more than seventy-five years, being born in Verners, Megantic, Quebec, on July 24th, 1850, where he resided until 1906, when he came to Gleichen, to follow his life-long pursuit as a farmer, in which he was ever successful. He had been ailing for sometime with his heart which was the immediate cause of his death.

Of immediate relatives only three sisters survive him, namely: Mrs. Hodge of Woodville, New Hampshire, Mrs. Leadbeater of Vancouver, B. C., and Mrs. Patterson of B. C.

The funeral took place Sunday afternoon, when Rev. Mr. Bryan conducted the service in the United Church, from where a number of close relatives and friends followed the remains to the Gleichen cemetery, where the last sad rites were performed.

The pall bearers were four of the deceased nephews, Messrs. E. J. Patterson, Warren Leadbeater, H. R. Patterson and E. H. Patterson.

The bereaved relatives desire to express through the columns of the Call their most sincere thanks to all their friends who were so kind to them during the illness of the departed one, and also in the hours of their great bereavement.

## SUNDAY SCHOOL

So successful was the recent Missionary Sunday in the United Church Sunday School that the treasurer was able to forward to the central office the full amount required to meet the school's allocation for the year. For the sum of sixty dollars a boy in India is supported in a vocational school. Getting not only the regular education but in addition being taught a trade. It will be agreed that this is a good piece of work on the part of the children.

## SELLING OUT

All Dry Goods, Ladies' and Children's Wear. Everything marked in plain figures.

Saturday, December 5th

will see a positive clearance of every article on the centre tables, consisting of Children's Underwear, Purses, Ladies Underwear, Sweaters, Blouses, Corsets, Infants Pure Wool Vests, Ladies Hose, Etc., Etc.

Buy any two articles and then you just cut the price in two.

## Men's Furnishings

This department will be continued and increased in size. We are giving 10 per cent off on all purchases during the sale of dry goods. Some special buys arrived this week.

Men's Wool Sox, reg. 50c. 2 pair for 75c

Men's Ties, regular 75c for 50c  
Men's Brown Jersey Gloves, 5 pairs for \$1.00

Men's Fine Dress Shirts only each \$1.50

Men's \$9.50 Wool Mackinaw for \$8.35

## GROCERIES

We meet all special prices on groceries. Only quality goods too. No long terms, but short profits. Our business in the grocery department has almost doubled. Some record eh?

Fancy wrapped Jonathan apples at \$2.25  
Beans, 17 pounds \$1.00  
Honey, 5 pound pail 95c  
Tomatoes, 7 cans \$1.00  
Sugar, 100 lbs \$6.95  
Sugar, 20 lbs \$1.50  
Raisins, 5 lbs 70c  
Prunes, 5 lbs 65c  
Rogers Syrup, 10 lbs 85c  
Milk, 7 cans \$1.00  
Blue Ribbon Tea 65c  
Rolled Oats, 8 lbs 45c  
Soap: P. & G. Sunlight  
Gold Crystal White  
17 Cakes for \$1.00

Our business last Saturday was equal to three ordinary days.  
We expect to do one better this Saturday.

### A War Of Extermination

Despite the fact that the statesmen of the great European nations, and the League of Nations, are earnestly striving to bring about understandings and conditions which will have the effect of preventing future wars, we nevertheless read in magazines of this and that invention and the effect it will have on the "next war."

The "next war" is, as a matter of fact, now being waged. It has been in progress for some time and is increasing in intensity. But instead of being a war between man and man, it is a war of extermination between man and insects. Man has won victories in certain sectors of the battle line which extends around the world, although, in the language of the late Great War, he has not yet been successful in fully consolidating his position, thus making his victory secure and lasting. In other sectors, the insects still have the upper hand and seem to be gaining.

The battle between man and the insects is not spectacular but it is a strenuous and extremely costly one fraught with grave possibilities if there is any slackening in man's onslaught until final and complete victory is obtained.

In the Canadian House of Commons last session, Hon. W. R. Motherwell, minister of agriculture, made a brief statement regarding the offensive being waged under the direction of that department against crop destroying insects in Canada when he was asking for an increased appropriation for this work, notwithstanding the general policy of reducing rather than increasing expenditures and extending the scope of public services.

Addressing the Rotary Club of Ottawa a few days ago, Dr. Arthur Gibson, chief of the entomological branch of the Department of Agriculture, stated that from 10 to 25 per cent. of every crop grown is destroyed by insects, while millions of dollars worth of pulpwood was destroyed from the same cause.

It is estimated that the boll weevil causes damage to the cotton crop of the United States to the extent of \$200,000,000 each and every year, and it has been prophesied that this beetle may in time ruin the cotton growing industry of that country.

The bot, or varble-fly, which affects cattle, causes a loss in Great Britain alone of from \$10,000,000 to \$25,000,000 annually.

Here in the West we know by bitter experience what the sawfly and other insects do to the grain crops, and how many a promising field has been ruined by them.

But it is not in relation to crops and cattle alone that insects are waging war on mankind. Until comparatively recent years, one-half the human death rate of the world each year was due to malaria, transmitted from person to person by the mosquito. For more than a score of years the mosquito held up the construction of the Panama Canal. Between 1881 and 1889 twenty-two thousand laborers on canal construction died of malaria or yellow fever, and the failure of successive canal companies was due to the mosquito, and it was not until the United States engineers studied and fought the mosquito that the canal was finally constructed.

Rockefeller Foundation has provided millions of dollars for a campaign against the bookworm.

But if this war against the insects is to succeed it must not be left solely to Governments, scientific bodies and interested experts. As in the Great War, the work, manhood and womanhood of the nations must be mobilized for victory.

The common house fly is a much more dangerous enemy of man than even yet, notwithstanding all the educational work that has been done, the average person realizes. If typhoid, diphtheria and other diseases are to be wiped out, the filth and disease carrying house fly must be first exterminated, and "swatting the fly" should not be regarded merely as a passing fad, or an amusing diversion, but as a really serious business in every Canadian home.

Government experts have compiled much valuable information against insects—those which should be fought and destroyed and those which are allies to man. It remains for the individual citizen to apply that knowledge and co-operate with the Government departments of health and agriculture in waging the battle, upon the successful outcome of which depends human lives, and countless millions of dollars annually.

#### Canadian Exhibition Train

According to an announcement from London, England, the suggestion that the Canadian exhibition train should tour Britain for the next two years and drive home the lesson taught by the Canadian exhibits at the British Empire Exhibition has been received with favor.

Aluminum furniture is now being made for home and offices.

#### New Markets For B. C. Lumber

New lumber markets for British Columbia products are being opened up and provincial spruce is going to Eastern Canada in competition with Norwegian spruce and is also venturing into Florida and Cuba to compete with southern pine.

There were 57 "guests" the first year at New York's "poorhouse" for former millionaires.

#### Homestead Entries

File On 20 Homesteads In Four Western Provinces In Western Canada

Homestead entries in the four western provinces during the month of September numbered 23, a decrease as compared with the same month last year, according to a report issued by the Dominion lands branch. During September last two homesteads were filed on in Manitoba; ten in Saskatchewan, fifteen in Alberta and two in British Columbia.

### Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of lumbago, and the tormenting aches of Rheumatism, no salient is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

#### Eliminating Responsibility

The Indians of the Carajas tribe of Brazil kill their aged members when they have become so feeble that they can no longer migrate from place to place. These old people are tapped upon the head with a heavy war club, and they submit cheerfully to their fate.

### BABY'S OWN TABLETS ARE OF GREAT VALUE

To All Mothers Having Young Children in the Home

No other medicine is of such aid to mothers of young children as is Baby's Own Tablets. The Tablets are the very best medicine a mother can give her little ones during the dreaded teething time because they regulate the stomach and bowels and thus drive out constipation and indigestion; prevent colic and diarrhoea and break up colds and simple fevers.

Concerning Baby's Own Tablets, Mrs. John A. Patterson, Scotch Village, N.S., says: "I have six children, and all the medicine they ever get is Baby's Own Tablets. I would strongly recommend the Tablets to all other mothers."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Plan To Reduce Crime

Offer \$2,500 Reward For Best Programme To Reduce Crime In New York

An award of \$2,500 is offered by the Society for the Prevention of Crime to the citizen or public official who presents, before January 11, the best programme to bring about the reduction of crime in New York City.

The announcement of the award states that while a single suggestion may win, the problem is so complex it seemed best to open the way for a programme or series of related efforts toward the solution. The contest is open to every citizen and public official in the United States.

The total number of words submitted must not exceed 2,000, which may include not only an exposition of the plan but argument for it. A brief summary, however, may accompany the manuscript, which must be typewritten. No manuscript will be acknowledged or returned.

#### Debt Funding Problems

France Hopes To Obtain Better Debt Terms From U. S.

Hopes that France may obtain far better terms than the United States debt funding commission was willing to give M. Caillaux have been raised by the Italian debt settlement. The terms are regarded in official French circles as sharply contrasting with the demands made upon France.

It looks, however, as though nothing can be done before next year to re-open negotiations with the United States, and that whatever is done then will depend upon the outcome of the financial crisis.

#### Seed Extraction Plant

The Dominion Government seed extraction plant at New Westminster, B.C., is expected to start operations soon. A consignment of 100 sacks of Sitka spruce cones from the Prince Rupert district is practically assured for the British forestry commission, London. Only 50 sacks of Douglas fir cones will be picked in the Fraser Valley to fill the Old Country order.

John Shields, Maryland's champion whittler, has made a violin from matches.

#### Europe By Rail

Plan of Swiss Engineer Cheaper Than Channel Tunnel

Europe by rail is proposed by an eminent Swiss engineer. The proposal is to build two parallel jetties between Calais and Deal. On each jetty there would be a double railway line, and also a roadway for motor lorries. It is claimed that by this route route trains could run direct from Nancy, or even from Basle, to Glasgow or Bristol at a far lower capital cost than the building of a channel tunnel. In the case of war, these railway lines and roads could be defended by the fleet and by coastal forts, or even blown up. The jetties are estimated to cost \$75,000,000 at the most. In order that the plan should not interfere with shipping, the scheme allows for the provision near the two coasts of broad open passages bridged over by gigantic viaducts. The open space under these viaducts would be capable of passing even trans-Atlantic vessels.

#### To Relieve Farm Drudgery

Modern Methods May Soon Be Applied To Make Work Easier in the Farm Home

The Minneapolis Journal remarks that men who only a few years ago predicted the coming of a time when wire-borne current, long used in cities, would take much of the drudgery out of farm chores were looked upon as impractical dreamers. But so were the men who first saw the possibilities of radio. So were Edison, Bell, Morse, Stephenson and Fulton dreamers in their day. The steamboat dream came true. So did the railway dream, the telephone dream, the electric light dream, the automobile dream, the motion picture dream, the airplane dream. And so the drudgeless farm dream may come true.

#### British Columbia Paper Mills

Now Selling Product On An Ever-Widening Market

British Columbia paper is now selling on a widening market. It supplies Western Canada and a large part of the Western Pacific coast states; 1,000 tons monthly goes to Buenos Aires; several orders were recently sent to France, which it is expected will become a steady market. A market has now been opened at Antwerp. As a result of the new Canada-Australian trade treaty, paper manufacturers are looking for a big demand from that market, which had been hitherto restricted due to a high import duty demanded.

#### Dedicate Book of Remembrance

The seventh anniversary of the ending of the Great War was commemorated in Halifax by a service of special impressiveness in the Cathedral of All Saints, marked by the dedication of the Book of Remembrance, a beautiful specimen of skilled workmanship containing the names, so far as they were procurable, of all the men and women of the province of Nova Scotia who fell in the Great War.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

One of the largest shipments of salmon to leave Vancouver this season was taken recently by the French steamer Zenor. One thousand tons of canned salmon made up a portion of the cargo, temporarily cleaning up all the freight of this kind for the French market.

Fame after all is but an elevation on which the victim is placed in order to give the public a better chance to throw mud at him.

Insanity may be more prevalent but you don't notice it except on the highway.

#### Defence Against Air Attack

The Best Answer to Those Who Talk In Pessimistic Tones

On the occasion of the fortieth anniversary of the driving of the last spike, which marked the completion of the transcontinental line of the Canadian Pacific Railway, E. W. Beatty, president of the C.P.R., on November 7th, reviewed the progress made by Canada since that event in a statement given to the press.

"Forty years is a short time in the life of a nation," said Mr. Beatty, "and yet I think we may, as Canadians, look back with not unreasonable pride at what has been accomplished in that little while. If we could go so far in the face of the difficulties that confronted the men of those days, it is hard to foresee limits to Canada's future progress if the Canadian people face their problems squarely and attack them with courage."

"The men of forty years ago had vision enough to see what Canada might be made, and the courage and determination to lay their hands to that tremendous job. They drove it through in the face of almost overwhelming difficulty and they gave their lives to it. The problems confronting Canada are no more difficult than those of forty years ago and I do not believe that Canadians are less able to cope with them or will lack courageous wise leadership if their leaders be accorded sympathetic encouragement that is their due."

"The building of Canada thus far," said Mr. Beatty, "has been a battling forward against great forces. The first landing of the gallant Frenchmen on the inhospitable shores of Quebec was something of a forlorn hope. The carving of pioneer homes out of the wilderness of the Maritime Provinces and Ontario, was a task calling for a courage no less unconquerable. The heritage these pioneers gave their children was a happy established homeland and an indomitable spirit that had to exist before the task of constructing the Canadian Pacific could be projected as a national and nation-building enterprise. "If anybody in this country or elsewhere is worrying about Canada's future, immediate or ultimate, he has only to look back at what Canada was forty years ago and reflect upon the progress that has been made in that short time. That is the best answer I know to those who talk in pessimistic tones of what we may expect for Canada during the next few years."

#### The Pas Dog Derby

Race This Year Will Only Be 150 Miles and To Be Run On Three Days

A new race will take the place of The Pas 200-mile dog derby next year. It was announced by The Pas Dog Derby Association. The new race will only be 150 miles, and will be extended over a period of three days, the teams racing 50 miles each day, and will be run over a circular course of six or eight mile laps, marked out on the Saskatchewan River. In addition to the purse a special cash prize will be given for the team making the fastest lap each day.

Besides the 150-mile race a freight race of 10 miles each day for three days will be staged. One hundred pounds will be carried on each toboggan, and only a tandem hitch will be used. Each team will be made up of five dogs, and the winner will be decided on the best time made.

#### Would Scrap All Subs

Lady Astor Urges Abolition of Gas and Submarines

Lady Astor urged the women of all countries to unite in a demand for the abolition of submarines and poison gas, in a speech to the women of Plymouth recently. "Scrap submarines," she cried. "I am quite ready to go around the world and try to rouse women on this question. I don't advocate total disarmament—we are not ready for that yet—but it is practical for the women to say that there shall be no more submarines. I am informed that they are not really necessary except in war."

#### 100-Storey Buildings

The American city of 2000 A.D. will have buildings 100 or more stories in height, with landing stages for aircraft, and the streets will be two or three levels to relieve traffic congestion. This is the conception of the future metropolis municipality as sketched by artists and architects who will exhibit their pictorial prophesies as one of the features of the American Institute of Steel Construction.

Bad luck is usually cursed for bad luck, while good luck is usually taken for granted.

When dining tables first came into use diners reclined on them and ate with their fingers.

Beauty is but skin deep; many handsome people are inwardly deformed.

#### Present Good Will Token

British Journalists Send Token of Friendship to the United States

British journalists recently presented a token of good will and friendship to the journalists' school of the University of Missouri. Sir Esme Howard, British ambassador to the United States, gave to the university, in behalf of the British Empire Press Union, a memorial stone taken from St. Paul's Cathedral in London, as a salutation of good fellowship between the two English-speaking nations.

The stone was officially accepted by Dr. Stratton D. Brooks, president of the university. Following the unveiling ceremonies, the university conferred the honorary degree of doctor of laws upon Sir Esme and George B. Dealey, publisher of the Dallas News, Texas.

Sir Esme declared that "the power of the press in a country like yours is probably greater today than any power that has ever been."

The ambassador said on behalf of the British Empire Press Union, in part:

"The reason why a stone from St. Paul's was chosen rather than from Canterbury or Westminster Abbey, or one of the older cathedrals, is that St. Paul's looks down on Fleet Street, Paternoster Row and Printing House Square, which for generations have been the centre of British journalism and have been connected with all the great writers and pamphleteers of England."

#### The Russian Front

Bolshevik Activity Against the British Empire Has Been Redoubled

It is a singular coincidence that the points where Russian and British influences clash are the same as those which were the scenes of Anglo-Russian rivalry in the unhappy year before the agreement of 1907. Territorial spoliation is out of date; but penetration by propaganda has taken the place of arms in the struggle for power. Having received a serious rebuff in this country at the last general election, Bolshevik activity against the British Empire has been redoubled elsewhere. And in the east the schemers of Moscow believe that they have found the Achilles heel of Great Britain.—London Times.

As a veritable excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

#### Manufacture Of Sugar

Amount Produced In Canada Continues To Increase

The amount of sugar manufactured in Canada month by month continues favorably in excess of the amount manufactured in 1924. For the four-week period ending October 10, 91,913,214 pounds were manufactured, as against 56,780,848 pounds in 1924. For the year to date, 917,470,916 pounds were manufactured, as compared with 653,832,249 pounds in the previous corresponding period.

Exports of refined sugar from Canada during the month of September show a remarkable increase as compared with the same month last year. According to a report of the bureau of statistics, shipments during September last amounted to 23,840,200 pounds, as compared with only 332,500 pounds in September, 1924. The value also shows a corresponding increase, being \$1,358,389 in September, 1925, a comparison with \$60,316 in the same month a year ago.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

#### On World-Round Trip

May Be Last Time to Circle Globe in a Windjammer

The five-masted barkentine, Forest Dream, is outbound from San Pedro, Calif., on what may be the last circumnavigation of the globe by a windjammer. Port Louis, on Mauritius Island, in the Indian Ocean, will be the Forest Dream's first port of call. That is about 18,000 miles from the Californian coast. After discharging its 2,000,000 feet of lumber there, it will continue eastward to Australia, load coal at Newcastle and come home via the South Sea Islands.

A true philosopher is one who can distinguish between tolerance and selfish indifference.

Epicures are people who dislike to waste good hunger on poor victuals.

People who strike in the dark may mean well, but they seldom hit the right spot.

Rub the scalp with Minard's Liniment

## Here and There

Basking in brilliant autumn  
sunshine, the coast of British Columbia  
affords a striking contrast to the  
severe winter weather already making  
itsself felt in other parts of Canada.  
On the coast, golf courses are  
crowded, the ocean is dotted with  
figures of bathers taking their daily  
dip, and pleasure craft still ply the  
waters.

One hundred thousand dollars  
worth of Black Per apples were  
shipped to Antwerp on the Canadian  
Pacific liner "Mellie" recently. In  
specialty built cages they will be con-  
veyed by the Dominion Express  
across Europe to the farm in Ire-  
land where they will form the  
nucleus of a free-breeding establish-  
ment.

Another instance of foolhardiness.  
A recent report from Hull is to the  
effect that an automobile, travelling  
at high speed, crashed through both  
gates at the Chelsea Road level  
crossing just as they were being  
lowered to stop traffic to that a light  
engine should pass. The automobile  
barred its way over the tracks  
barely two feet ahead of the loco-  
motive.

Arthur Edward Thorne, in the em-  
ploy of the Canadian Pacific Rail-  
way since August 18, 1904, when he  
came from Hull in the office of the  
Treasurer, has been appointed  
assistant treasurer of the company.  
Mr. Thorne became assistant chief  
clerk in the office of the Treasurer  
in 1910 and was promoted Chief  
Clerk in 1915.

The apple is a typical Canadian  
fruit and among the finest grown in  
the Dominion. It is inappreciable  
as a Christmas gift for friends and  
relatives in Great Britain. In order  
to facilitate shipments, the Dominion  
Express Company are offering spe-  
cial rates. Standard boxes contain-  
ing about 150 and standard barrels  
about 375 will be sent from  
Quebec or Montreal up to the close  
of navigation to any station on the  
railroad in Great Britain or Ireland  
at a cost of 85 and 84, respectively.

To perpetuate the memory of the  
late P. Alexander Peterson whose  
services in this part of the coun-  
try gather, a portrait of the famous  
engineer, done in oils by the late  
Robert Harris, Canadian artist, is to  
be hung in the Engineering Institute  
on Main Street. The late Mr.  
Peterson, former engineer of the  
Canadian Pacific Railway, took a  
leading part in the railway construc-  
tion in Eastern Canada during the  
latter part of the last century.

According to a report just issued  
from Canadian Pacific Railway head-  
quarters, an average of one instance  
of gross carelessness on the part of  
automobiles every seventeen days  
in the recent during the last three  
years and two months in connection  
with level crossings. The latest in-  
stance occurred at the crossing of the  
Algonia district. These instances  
number 69 from September 1, 1920,  
to October 31 last, or a period of  
31,747 days. They resulted in in-  
jury to 55 persons, of whom two  
died.

Creation of a new industry in  
Western Canada covering a product  
which is the value of about five mil-  
lion dollars annually is foreseen—  
by the samples of hemp now on  
display at the Windsor Station,  
Montreal, according to G. G. Osm-  
und, Development Engineer, Canadian  
Pacific Railway. Mr. Osmund stated  
that considerable quantities of  
hemp have already been made in the  
West of Canada towards the creation  
of such an industry. Efforts to pro-  
mote the use of hemp have been made  
in recent months and there is no doubt  
that fine stands of hemp can easily  
be grown in certain districts.

waters. EXCHANGER MUST BE ADDED TO ALL CIRCULARS

GLEICHEN, ALBERTA, WEDNESDAY

### THE WEEK BEFORE

We are once more getting around to the time of all  
the weeks of the year there are none that are so full of  
thrills and joys for the children as the week before Christ-  
mas. Eager, anticipating, they wander around like lost  
spirits, their minds given to the all-absorbing question as to  
what the coming festival will bring them. Uncon-  
sciously they assume that the whole affair is for their  
benefit, and their self importance is immeasurable. Shop  
windows and the inside of the stores come in for marked  
attention, and with noses pressed up against the window  
panes they make an elected choice of the thousand and  
one article that Santa Claus has to bring them, a choice  
which is altered and re-arranged every moment of the  
day. Groups of absorbed children discuss their plans to  
one another with as much gravity as if they were settling  
the direction of the universe for the next century.

Calendar hunting is one of their occupations—a de-  
light to them—and they carry their acquisition home with all  
the pride of an annually invested importance. Christ-  
mas time being the set time for them to approach the  
store keeper on a footing of equality.

The spirit of Christmas, so absolutely planted in the  
minds of the children, is the one which extends more freely  
than any other to the elders, bringing to mind the many  
Christmas times gone by when they were equally excited  
over the great event, the times when they held the promise  
of a youth so seldom carried to realization.

Is it because that we devote our Christmas energies  
to the giving of a special time to the children? Perhaps it  
has something to do with it, for after all the child and the  
hopes it promises for the future are in the minds of every-  
one, and what is better in the promoting of a bright future  
than a happy present?

The wise merchant is now advertising what he has for  
the week before Christmas.

### ANOTHER PEACE TREATY

British diplomacy has scored another important victory  
in bringing about a settlement of issues which have been  
agitating the whole British sphere of influence in the  
Near East for the past seven or eight years by the con-  
clusion of an agreement with Ibn Saud, Sultan of Nejd,  
and chief of the warlike Wahabites, the most powerful lead-  
er in Arabia, defining the boundaries between Mesopotamia  
and Nejd, and between Nejd and Trans-Jordan. Ever  
since the Turks were driven out of Arabia after a  
war in 1917, Ibn Saud has been extending his kingdom west-  
wards until now the sacred Mohammedan cities of Mecca  
and Medina are under his control, leaving King Hussein  
of the Hedjaz, whose former capital was Mecca, only a  
narrow strip of the territory along the Red Sea, with his  
seat of government removed to Jeddah.

The agreement is important in view of the war in  
Syria, for it was feared that the Bedouins might join the  
Druses in their warfare against the French, while war  
fare across the Jordan and south of the Dead Sea would  
only further unsettle the restless Arabs in Palestine. The  
settlement, therefore, will have a salutary effect on prac-  
tically the whole Near East, where the Arab population pre-  
dominates, namely, Arabia, Palestine and Mesopotamia,  
where many million British pounds and not a few British  
lives have been spent toward bringing about lasting peace  
since the war. The treaty means that that part of the  
world almost as much as the Locarno pact does to Europe  
—Calgary Alberta.

### TRIUMPH FOR ALBERTA BUTTER

The greatest triumph yet scored by Alberta cream-  
ery butter in competition was recorded recently, when it  
was announced from London, Eng., that an exhibit of Al-  
berta creamery butter, salted, made at the plant of P.  
Burns Co., at Edmonton, had won first prize and a gold  
medal in the Edmondson exhibition of the London dairy show,  
one of the largest shows of the kind in the world. This  
means that this exhibit from Alberta stood ahead of all  
other exhibits from other parts of the British Empire, not  
including Britain itself. Two other exhibits were given  
high commendation in the show. In the colonial section  
of the show, Canada won four out of the six prizes offered  
for Empire-wide competition, and Western Canada took  
three out of the six. This means that Western Canadian  
creamery butter is recognized in the most discriminating  
market in the world as the highest quality of butter  
produced in any of the British Dominions.

## Be Not Deceived

You can't buy a suit of dress  
worth \$40.00 at half the price.  
We don't get any more than we  
pay for, often less.

And you can't get a pair of  
glasses worth \$12.00 to \$15.00  
at half the price.

If you think no more of your  
eyesight than to be satisfied  
with a "superficial" examina-  
tion and inferior glasses—then  
only pay what they are worth  
—which isn't much.

Don't throw away good mon-  
ey, thinking that you can get a  
real examination and the best  
quality of lenses and frames for  
half their real value—you can't!

A good pair of glasses—con-  
sistently fitted—will last for years  
and be a source of real comfort  
and pleasure.

You will only have one pair  
of eyes. Be particularly care-  
ful with whom you treat them.  
Registered by the Boards of  
Examiners of Ontario, Mani-  
toba and Alberta—With over  
\$1,000 satisfied pairs of eyes  
to our credit in 20 years prac-  
tice—a record of which—a  
feet justify proud.

Examining eyes, grinding  
lenses and fitting glasses is all  
we know but we know that  
well!

## Teeing off for a "Round-the-World" Trip

Left, Captain R. G. (Jack) Latta, commander of the Empress of Scotland just prior to teeing off from the dock of his ship as a member of the "Round-the-World Golf Club" tournament. Right, Captain R. G. (Jack) Latta, commander of the Empress of Scotland, teeing off from the dock of his ship as a member of the "Round-the-World Golf Club" tournament.

Here you see Commander R. G. (Jack) Latta, of the S. S. Empress of Scotland, flagship of the Canadian Pacific fleet, just before and in action as a member of the "Round-the-World Golf Club", teeing off from the dock of his ship and splitting the fairway far into the ocean with the first ball of the tournament. The idea of the club was first started by J. O. Upham, of the San Francisco Golf Club, who on a 450 but was ahead with the notion of being on foreign golf links across the world, playing one hole on every course with the same ball. He had 11 kinds of apost from losing his ball on a Chinese

## MUSIC RECITAL

Father Bolts, of Rockwood, will give a musical recital at the Gleichen Community Hall on Monday evening at 8 P.M. A Grand Concert Grand Piano will be provided from Calgary for the evening. All lovers of music will remember Father Bolts recital was in February last and will want to hear him again. The recital will be followed by a dance. Admission for children 50c and for adults 75c. A supper will also be served.

### FROM CHINA

Capt. Bruce, who served in the South African War and also the more recent world war, and who has for fifteen years been engaged in Y. M. C. A. work in China will give an illustrated lecture in United Church on Wednesday evening, December 2nd.

This will be the thanksgiving meeting of the W. M. S. A. cordial invitation is extended to the public generally. The offering will be devoted to the funds of the missionary society. The advent of one who knows China from fifteen years residence there in close contact with the student bodies should be of more than passing interest at this time. Come along and bring the children.

## Order Your Farm Help Now

TO BE OF SERVICE to you and your family in securing competent farm help, the CANADIAN PACIFIC RAILWAY will continue the Farm Labor Service, and will continue to do so in the future. The service is for the purpose of placing in the hands of the farmer a list of names of men, women and boys, who are available for farm help. The list is compiled from the reports of the Canadian Pacific Railway, and is sent to the farmer by mail. The list is sent to the farmer by mail, and is sent to the farmer by mail.

In order to have the help reach Canada in time for Spring operations, farmers requiring help must get their applications in early, to enable us to make the help needed.

Blank applications form, and full information regarding the Service may be obtained from any C.P.R. Agent or from one of the officials listed below.

THE CANADIAN PACIFIC RAILWAY COMPANY

Department of Colonization and Development

WINNIPEG: J. E. Macdonald, Superintendent of Colonization.  
KARLSTADT: W. E. Adams, Agricultural Agent.  
CALGARY: W. E. Adams, Agricultural Agent.  
EDMONTON: W. E. Adams, Agricultural Agent.  
MONTREAL: J. E. Macdonald, Superintendent of Colonization.  
M. S. THORNTON, Assistant Commissioner. E. S. DENNIS, Chief Commissioner.

## Chained to the woman he did not love!

She thought she held him in the stolen leash of love but to him it was a chain of bondage when youth and beauty appeared—and then the storm of fury became unloosed. A drama for every man and woman.

## "Smoldering Fires"

PAULINE FREDERICK and LAURA LA PLANTE  
GLEICHEN COMMUNITY HALL  
SATURDAY, December 5th  
Also the seventh chapter of "The Great Circus"

A school matron in a neighboring school (name withheld by request) found a lead in the geography class who was deeply interested in learning the points of the compass. The teacher said: "You have in front of you, the north; on your right, the east, now what have you behind you?" After a few moments' reflection Allen exclaimed "A patch in my pants." The matron, at the question more emphatic, "Allen continued in a shame-faced manner, 'I now you would see it. I told me last night'."

How things in this old world do change. When we and company were kids we all shared guns just like the kiddies now-a-days and teacher used the birch rod. The latest method, however, is teacher places the gum stick in the boy or girl's hand and says in the most forbidding of it is the birch rod. When Allen was punished, How dignified a teacher must feel—but, then, as we said before, things do change. Wonder how this world would cut among the leaves of the light fantastic, it certainly would be picturesque.

MYSTIC NIGHTS—DEC. 15 and 16

Cheer up! The best is yet to come—Mystic Nights, 15th and 16th.

Mrs. Rutledge returned last week from visiting friends at Clareholm.

Considerable real estate moved on Tuesday—like the good old summer time.

All music lovers will want to hear Father Bolts musical on Monday Dec. 7th.

Mrs. Hyndman is rapidly recovering from her illness, but has not yet returned home.

The Bookies surely look beautiful this fine morning, bathed in their winter coat of "the beautiful."

The St. Andrew's W.A. whist drive and dance was a great success last Friday night in every particular.

Mrs. Bevan is now improving in a hospital at Calgary, but it may be sometime before she will return home.
